

Her Pretty Face Bars His Fame

When Coach Dick Hanley told Ken Meenan, Northwestern's star fullback, that he couldn't play football this fall because he is now a married man, Meenan went to his coach and asked him to let him play. The coach listened and called in Athletic Director Wilson for a consultation. They finally decided that Meenan must get his foot-ball on the sidelines this year.

Smith Breaks Ice In Roosevelt Row As Thousands Cheer

**Bad News For Hoover
When N.Y. Electoral
Vote Is Canceled**

By KEN CLARK

Canadian Press Staff Writer

NEW YORK, Oct. 5.—Bad news for President Franklin D. Roosevelt this morning came out of Albany, N. Y.

Alfred E. Smith last night strode across the platform at the Democratic convention, bawling out the words of his mouth, "Hello, Franklin."

Ten thousand Democrats rose

to cheer the presidential candidate of 1928, the aspirant to nomination this year, and the man who beat out Franklin D. Roosevelt of New York.

"All," said Roosevelt, "who sides with the golden-dربدnered side—walks of New York for president come out from the heat!"

"FO ME TOM."

Entirely aside from personal feelings, the astute Roosevelt, it may

be noted, was right.

INTERESTING tales are seen looking out of a window. The lady in Eva Gore-Booth's room preferred the Little Irish road than her post box, "the grand road from the mountain," with traffic "so busy, so noisy."

LONDON, Oct. 5.—Great Britain and the Irish Free State are due today to make the issue of unpaid Irish land annuities a major topic of discussion between the two governments.

President Eamon de Valera of the Free State and Sir Thomas Jackson, chief negotiator for Downing Street, issued a joint statement after having conferred with their members of the British Cabinet.

"We have agreed," this statement read, "that the first item of business at the meeting to be held on Oct. 14 will be the question concerning Irish land annuities should make the subject of the third conference."

British Columbia Liberals Advocate Nationalization Of Canadian Banks

FEAR SHOWN AT MERGER OF INSTITUTIONS

Attention of Parliament
Called to Serious
Situation

VANCOUVER, Oct. 5.—The Liberal administration of British Columbia decided last night to urge the Dominion government to bring into effect a national bank merger insurance scheme at the earliest possible date and expressed its belief that a bill to that effect would be made by the provincial department of labor into the possibility and the desirability of a shorter work day and shorter work week in business and industry in British Columbia.

VANCOUVER, Oct. 5.—The establishment of a national banking system was endorsed by the convention of the British Columbia Liberal Association today.

The resolution of endorsement called attention to the Canadian government's failure to insure savings of the existing economic situation with a view to meet it as a means of creating and maintaining the circulation of essential credit and to provide a means which should be used in order to relieve the existing burdens of taxation, unemployment, the cost of living, capital and to assist in the prosperity of the Canadian people. And the convention also promulgated a plan of definite credit co-operation between the national government and the provincial governing authorities and the Canadian banking system.

The resolution also declared that the parliament of Canada "enjoys an exclusive jurisdiction over all banking, currency and the issue and circulation of money and credit purchasing power."

The proposal to merge banking and credit in the world over was strongly attacked by various speakers at the convention. It was charged that "our Canadian banks should not be merged" he was shouted down by the crowd.

G. G. McGeer, of Vancouver, in the name of the resolution, said: "I am sure that we are guaranteed against those men who make their living by honest work, who do not put the money changers in charge of government." He declared: "We do not believe that the argument that it must not be used because it might be abused was valid. We believe that the city should not be used because it had the power to destroy. We believe that it is better to have a modified form by practically all nations at various times in the years which followed the outbreak of the war. We dealt extensively with the question of whether the excess and surplus by the countries was to be merged and apportioned by the countries."

"All I suggest," he said, "is to change the management of the existing credit situation and to use it for the good of the country."

LIBERALISM IS PUT TO FRONT

VANCOUVER, Oct. 5.—Some six hundred delegates were seated last night in their constituencies throughout British Columbia today to communicate with their members of the two days by the convention of the British Columbia Liberal Association.

There were declarations of principle on many matters, but if the speech of G. G. McGeer, of Vancouver, throughout the two days are any criterion, the chief appeal of the Liberal convention, to be held in a general election time, will be on a policy of liberal interpretation of law against the conservative meaning of the word "credit" in a broad sense, rather than in a strict sense.

Mary McCormic, Prince Mdivani Part Company

HOLLYWOOD, Oct. 5.—Hollywood heard today that Serve Mdivani, Georgian Prince, has moved to a hotel and his wife, Mary McCormic, grand opera singer, has gone to New York. She is living with friends.

Although the Prince had been unable to be reached by an attorney, Michael Luddy, representing him, he said he "might have something to say later. The Prince formerly was manager of the Hollywood Bowl. He is a brother of David Mdivani, head of Masi Mdivani, film actress.

Elsie Marchyshyn Appeal Dismissed

In an unusual judgment rendered by Justice A. McGeivern, and concurred in by the court, the appellate division of the supreme court of Canada dismissed the appeal of Elsie Marchyshyn v. William Lam for permission to introduce new evidence.

The main appeal against the decision of the court of first instance, the trial judge, was based on the next local setting of the appeal.

Plaintiff received, for \$25,000, as a result of injuries received by a wall of the piano room, and the defense

by Mr. Justice A. F. Ewing.

In appealing for admission of new evidence, Neil D. MacLean, K.C., for plaintiff, argued that since damages were not based on the value of the wall, it had been established that the wall had been cracked at the wall.

THE DEFLATION HAS OCCURRED

A visiting bank official says: "As far as the western farmers are concerned there is a moratorium in effect right now. That is to say, the farmer cannot get his grain paid for, and will not be able to pay until there is some substantial advance in the prices of the products with which he must do the paying."

Nobody who is familiar with conditions would doubt the accuracy of this statement, as one of general knowledge. The farmer does not know that the predicament in which the farmer is placed is spreading to other classes. Because he cannot pay wages are coming down, employment is tending to lessen, business is stalled and town mortgages are being foreclosed. The position of the farmer is changed, what prospect is there that the positions will improve of those who can only persevere when he does?

There is a point here that the stalwart champions of "sound money" should clear up, but which they do not seem anxious to elucidate. Inflation, they argue, would amount to repudiation of debt, and a hardening cutting down of the wealth of those who have loaned money on mortgages. But hasn't that very same argument been advanced by those who have already done, by hard circumstances over which the farmer has had no control, what amounts, puts forth as reasoning?

Forty Years Ago

From the Files of the Edmonton Bulletin

Rev. Alex. McDonald of Grafton, and Rev. P. Mitchell of Thomas, North Dakota, arrived on Thursday's train. The former is the pioneer missionary of the Baptist church in Winnipeg.

Major H. S. Moore and D. H. Macdowell, M.P.

who constitute the firm of Moore & Macdowell of Prince Albert and Edmonton, arrived on Thursday's train.

Mr. Moore, a young partner of Miles Hubbell, Gibbons and St. Cyr, who have been engaged in re-taking old surveys in township 50, passed through town on Friday on the way to Ft. Saskatchewan to work in township 54.

Mr. S. C. Clark, at the Lake of the Woods hotel, was paid \$12,000.

Premier Cayley is out with a letter explaining in reply to Senator Perley that he does not have to resign on account of the failure of his party to elect a speaker nominated by him. Mr. Cayley says that he has been compelled to do this because he would have done so, and failing in that should have resigned." Mr. Cayley's explanation (1) fills two columns of the *Regina Leader*. It amounts to this, that according to practice in the Dominion House of Commons if Mr. Cayley had proposed the speaker nomination, he would have been compelled to resign, but he would have been bound to resign but having made the nomination only in his capacity as a private member—several days after he had announced himself leader of the executive and the speaker nomination was not bound to resign. This is a fair sample of the style of argument which the gentleman of the "Regina Leader"—to quote the *Regina Leader*—in his less abusive moments, puts forth as reasoning.

THIRTY YEARS AGO

The new bridge across the Bow River, just been built on Raft Creek, is now ready to work this week at the new bridge site on the Fort Saskatchewan Trail, north east of town, and is working steadily up Raft Creek. The digging is done with a steel shovel and crane reaching out in front and operated by steam power.

This is a fair sample of the style of argument which the gentleman of the "Regina Leader"—to quote the *Regina Leader*—in his less abusive moments, puts forth as reasoning.

TWENTY YEARS AGO

London, England—With five armies mobilized in the Balkans, war is freely expressed in official circles, and that is all that matters.

Honorable Charles Stewart, Minister of Municipalities, explained the new Municipalities Act at a public meeting held in St. Luke's Mission Hall, for the purpose of considering the advisability of amending the act. Particulars of other subdivisions in that district to the City of Edmond.

J. T. Dimming of the Merchants Bank, Castor, reached Edmonton Wednesday after a trip through Grande Prairie and the Peace River country.

Up to date the number of rural municipalities which have been organized in Alberta is 100.

The Imperial Conference agreements were worked for all they were worth as a campaign issue; apparently for a good deal more than they were worth. The flag was waved as vigorously as in 1911. All who valued Empire trade were called upon to vote for the Government. And apparently it was deemed to be a vote against a preference for Canadian products in the British markets. The verdict is products in the British markets.

The Government will have some trouble trying to laugh that off. The meaning is too plain. Five million people in the empire during the campaign. They therefore elevated the campaign into a contest of national significance. South Huron was invited to speak for Canada. Well, it has spoken.

All who valued Empire trade were called upon to vote for the Government. And apparently it was deemed to be a vote against a preference for Canadian products in the British markets.

The pronouncements upon which the present Government and the Canadian people based their contention they were to cure is ten years worse than when they took office. Our markets abroad have been sacrificed to the theory that we could live in commercial isolation and prosper. Since we will not buy from Canada, we must import. And provinces are not driving toward autarky. And Ontario has not yet given sign that it has a single constructive idea to stop the slump in wealth, values, earnings, wages, employment, and trade. That is the state of affairs against which South Huron spoke. He did not speak for the empire to make the contest there a test of public opinion as to its record and policies. It is entirely justified in drawing the conclusion that the people of Canada generally think as do the voters in South Huron.

THE RELIEF OF FT. EDMONTON

On the first of May 1880 there arrived on the south end of the river opposite Ft. Edmonton a little army that was destined to play a big part in breaking the rebellion and re-establishing law, order and security throughout the Northwest Territories.

The force consisted of 60 Mounted Police and seven and four companies of the 6th Battalion Carabiniers Mount Royal, under command of Major General Strange. This advance guard was followed by two other contingents, making up "Imperial" column.

The force had got together at Calgary, was ordered to Edmonton in response to urgent representations that this remote settlement was in imminent danger of attack. The reality of the menace was emphasized by the news that a month earlier had occurred the massacre at Frog Lake.

The LAST WORD

Crep into the narrow boughs,
Creep, let them make as said!
Vain thy onset! All stands fast.
Thou thyself must break at last.

Let the long contention cease!
Giese are suave, and suave are giese.
Let them have it how they will!
Then art tired; best be still.

They out-talked them, blazed there, tore thee?
Bent their fangs this before thee;
Fired their ringlets short and passed,
Holly charged—and sank at last.

Charge once more, then, and be dumb!
With the victory, when may come,
When the fort is fully fall,
Fling thy body by the wall!

"The Crisis at Ottawa"

From an article contributed to the National Bank by Mr. J. F. Dore, the well known banker of London, England.

"Canada has to pay the United States one hundred and fifty millions dollars a year for interest."

This statement has made a deeper impression on the minds of the people than any of the happenings of the conference. For what may it not portend?" Taken in conjunction with the economic pull which from her position will be exerted on the United States exports over Canada, it may lead to Canada's ultimate absorption by her great southern neighbor. Thus we are confronted not only with a Canadian but a world crisis.

"Canada should be the confederate but a confederacy between the confederates is a dream of about 15%, has now risen in value and is within 10% of the United States dollar. If the United States, however, should decide to withdraw the Canadian dollar from circulation, it is perhaps premature to pass an opinion—they will in all likelihood be only too ready to assist in restoring the Canadian dollar to parity with their own."

"The Canadian position is the crux of the Empire currency problem. The Passing Show

By J. S. Cooper

Cause and effect. The depression has affected the market for human skeletons. Where once many a nose-removal reminder of what we all will come to could not be had for less than \$150, advices from the skeleton market in London state that they are now selling for as low as \$80.

No casket need be without its family skeleton at that price.

In the British Museum a few years ago the curator in charge of the Roman section let me handle one of the "skeletons at the feast" which the Romans used to pass round with the horns drawn back to show the bones. It had been passed from hand to hand round many a feast. It wasn't intended to take the joy out of life like these texts of Scripture which well-meaning cranks paint on rocks by the roadside, or like the "Prepare to meet thy God" signs which I have seen in the windows of pawnshops. The eggplant is very easily digested as well as being healthful. If you will try some of the simple eggplant recipe, I am sure that you will learn to like that vegetable.

The eggplant does not in any manner resemble hen's eggs in food value but takes its name solely from the shape of the vegetable. The eggplant is especially rich in valuable organic salts, predominating in the seeds, which are the "egg" of the "fruit." "Eggplants" are the "egg" of the "fruit" vegetables.

An arbitration committee from the Motion Picture Academy of Arts and Sciences had sat on the case. The Canadian government, the Empire countries to render a decision.

The art and science of which young Mr. Capay is master consists principally of offensive stage speech and action against the woman in his play—that is judged by critics as bad stage art. Many men who have seen "The Crisis at Ottawa" in the English theatre say that it is a good play.

What is the co-operation of the students in the crisis at Ottawa? The students are not the ones who are most interested in the crisis. They are the ones who are most interested in the crisis.

THE EGGPLANT IS WHOLESALE

The eggplant probably originated in the East Indies or southern Asia since in these lands it has been cultivated from the most remote past for its succulent fruit, which was served as a vegetable. In this country the eggplant was at first used cautiously, due to some fear of its properties, but gradually became popular.

It is the "nightshade" family, but there is no more reason to believe it poisonous than to believe that tomatoes are members of the nightshade family.

Some people have been prejudiced against it because they found it somewhat indigestible; however, this was only because of the way the eggplant was prepared. The eggplant is especially rich in valuable organic salts, predominating in the seeds, which are the "egg" of the "fruit." "Eggplants" are the "egg" of the "fruit" vegetables.

Varsity Meets Liberals In Junior Football Game At Renfrew Park Today

D'ATOS PANS

—BILL LEWIS

The folks who follow their Canadian football with more than a passing interest will be heading out into the info, to watch this Varsity junior squad that battles the Liberal team today. They say, many of them, that this is the team to beat. And the gridiron heroes hereabout this fall seem.

And, looking over the roster of the young squad from the U.A., there seems plenty of reason to believe my information.

Under Coaches "Duff" Menzies and Pop Moon, who have seen quite a little service on local gridirons in the past, are many of the names that surely are some of the finest prospects you would ever care to read. An early start, too, and a good night through the team, as of players I know, the majority of whom are going to go unrevealed for they'll be mighty tough to beat.

But then again, "Scooty" Brown has assured me that his team will take the field this afternoon. So why are we here?

More action could be seen in the camp of the senior Eskimos last night than was the case Monday, when the team had the hurts rubbed out of them. Last night there was a fairly representative crowd at the stadium to get into uniform and there were sent through a long signal drift of the Eskimos, who are determined to get them to their peak for the game against Varsity on Saturday.

Phil Heron, George McMillan, Bill Morris and Elwyn Jones were still unable to get into the main camp due to the fact they had last Saturday and the week before, but they are expected to be ready for action in a short while.

With his full cast lined up and fortified by his license from the Edmonton Boxing Commission, Milt "Doc" Miguel, Billinsky wrestling promoter, brought boxing promoters, bantam, caesars yesterday evening, to fight green yesterday. All the top headline Leo Lemki, Leo Dugay, and Frank Sayer, Grizzly Adams, and out of Vancouver.

Mike will for Sayer come to the ring for the first time next week to finish off his training for the bout, while he says Lemki will check in a few days later.

It is many, many years since a fighter of Lemki's calibre has come to Edmonton for a bout and Doc Miguel is looking forward with the reception his announcement of the fight has been given by the city.

He is confident that Edmontonians will give fair support to a boxing card that was ever accorded the wrestling shows he presented.

Hockey fans are awaiting with little interest the first announcement of signing of players by the Western Canada's group of new franchises, but it is likely that it will not be long before they come.

Talk in the sports bars here seems to have in the news league, too, or else my hearing is not as good as I formerly considered it.

Five Pin League Opens Campaign

With 16 teams entered, the Commercial Five Pin League begins its schedule of games for the coming fall, at the Royal Canadian, tonight at the Recreation Academy.

Play will start at 7:30 sharp, and with the exception of the first competition should be through the entire season.

REFUSSES TO QUIT STAGE

Helen Hayes announces that, regardless of what may happen, she might be in Paramount's "A Farce To Arms" she will appear in at least one Broadway play each year.

STUDENTS ARE FAVERORED OVER GRIT MACHINE

Coach Brown's Charges Confident of Taking League Leadership

With a victory and one defeat in two starts, Scooty Brown's fast-stepping Varsity junior team is in the kick-off this afternoon at Renfrew Park battling for the league leadership with the University of Alberta junior grid iron squad.

Through a misunderstanding,

it was printed that the Kinsmen had been rectified and the fed sweatered Grits will be in action.

Students of Varsity and High school supporters anxious to urge their favourites on to victory, however, can buy up the seats for the hour of play for 4:30 to give everyone an opportunity to be on hand when the starting whistle blows.

The Lions are still smouldering with the hands of Frank Richard's Kinsmen some 10 days ago.

With the start of a sure fire win for the Grits, suddenly went by the boards as the Kinsmen tried to gain the winning point in the final quarter. Needing only one point, Grits were a fair bunch of students and their one ambition was to make themselves and vindicate themselves in the eyes of their admirers.

It is no task, judging

from the material Coaches Dad Menzies and Pop Moon have bandied about, to get the Kinsmen out of the Green and Gold.

A generous amount of time and effort by the Kinsmen stars did the line-up on the college boys. For three weeks Menzies and his men laboured through daily workouts. Averaging 16 pounds, Varsity can muster a great deal of drive and his pulverizing through the line is expected to play an important role in the contest.

It is a tall task, though, for the Kinsmen to have a tryout star with all the gaudy ones gathered on Renfrew Field.

He roars through the opposing lines with 170 pounds of hard bone and muscle, but there is no room, there isn't a tougher tackler around than the same Milt.

With the arrival of Don Williams, Varsity's star junior back of last year, edition Wilson set great store by his driving and his pulverizing through the line is expected to play an important role in the contest.

Quite a few of last year's team are back in the fold, including Robert, Al Miller, Jack McTigue, Tommy Corlett, Ralph Berry, and the rest of the gang.

The kicking and fall is going great guns and his long, limber right leg can be counted on to come through with forty spuds.

ANDY — HERES AN ALMANAC THAT JUST HAPPENED TO SLIP ACROSS AND IN IT WAS A FACT CONCERNING THE PRESIDENT'S LIFE & DUTIES, INCOME — AND POLITICAL PREDICTIONS. PERHAPS YOU'D LIKE TO HAVE ME READ IT TO YOU —

WELL — FOR ONE THING — HE GETS HIS RENT FREE AT THE WHITE HOUSE — I KNOW THAT WILL BE OF INTEREST TO YOU. HE HAS A YACHT AT HIS DISPOSAL — AND IS ALLOWED FIVE MILLION DOLLARS A YEAR FOR EXPENSES — HIS SALARY IS SEVENTY-FIVE THOUSAND DOLLARS A YEAR —

HOW MUCH A YEAR?

SEVENTY FIVE THOUSAND

THAT'S ALL I WANT TO KNOW

SCROD HAS JUST DISCOVERED THAT HIS BRIEF CASE, CONTAINING THE WILL AND ALL THE PAPERS PERTAINING TO THE FORTUNE HE BELIEVES HAS DISAPPEARED, AND IN IT'S STEAD HE HAS A BRIEF CASE BELONGING TO LAWYER HAWK.

THESE PAPERS PROVE THAT THIS IS HAWK'S CASE. I KNOW HE JOSTLED ME ON THE STREET — I DROPPED IT ON THE GROUND AND WE MUST HAVE GOT THEM MIXED UP.

WELL, I HAVE ALL THE INFORMATION, I'LL CALL SCROD AND COVER MYSELF ON THIS.

MRS. SCROD! LAWYER HAWK WANTS YOU ON THE PHONE.

MR. SCROD, AT LAST I LOCATED YOU. I'VE LOST A BRIEF CASE WITH SOME VALUABLE PAPERS, DID YOU, BY ANY CHANCE, GET THE WRONG CASE? I HAD AN ACCIDENT ON THE STREET. I DON'T HAVE SOMEONE'S BRIEF CASE — YES, I'LL BRING IT RIGHT OVER.

THERE — BY CALLING HIM FIRST, I WILL ALLAY ANY SUSPICION HE MAY HAVE HAD THAT I PURPOSELY SWITCHED CASES ON HIM.

NO, I DIDN'T GET AN FISHING LICENSE FOR UP HERE, DID YOU?

YES, AVERY, I NEVER FISH WITHOUT ONE.

THE CAMP WARDENS CAN'T WATCH EVERY BODY, SO THERE'S NOT MUCH DANGER OF BEING NABBED.

I WOULDN'T TAKE THE CHANCE IF I WERE YOU.

IF YOU GET PINCHED IT'LL COST YOU SOMETHING.

MISTER WICKER, AVERY IS SO COCKY ABOUT FISHING WITHOUT A LICENSE, WE'VE GOT TO FRAME HIM. BILL AND I WELL SPRING IT TOMORROW.

Range in Grain Prices

WINNIPEG, Man., Oct. 5.—Prices of holding rates were more than offset substantial export trade and wheat prices were well above last year.

Prices at the cities were 4 to 10 lower than Tuesday's final figures. Wheat futures were down 10 cents to 10 1/2 to close at 40 1/2 and 30, respectively, while December and May each lost 14 cents.

Closing prices set up new lows as Chicago took most of Tuesday's pop and closed 10 cents lower. The market was quiet and business also was slow.

Export figures were placed at something over 1,000,000 bushels but demand was neither keen nor strong, business was slow and the buying pressure which had been there in spite of smaller grades was not enough to keep the market from closing its wheat floor at prevailing prices.

Transferring wheat was slow and demand for most grades was rather indifferent as offerings were generally held up by the low price. The market was small and con-tinued chiefly of odd lots.

Actual sales of coarse grains were few and the market was quiet as the market war again of a routine character.
